

LOO + improved

This quarter, we're putting the spotlight on one of the biggest water users in your home — your toilet. Toilets account for nearly 30% of indoor water use, and a leaky or outdated toilet can waste thousands of gallons each year.

Participate anytime between OCT 1 – DEC 31

When toilets run, *nobody wins!*

Did you know toilets are the biggest water users in most homes?

A running or leaky toilet can waste hundreds of gallons of water every day. This quarter's incentive is encouraging residents to give their toilets some attention, whether that means finding and fixing leaks, replacing worn-out parts, or upgrading to a new high-efficiency model with our Toilet Rebate Program. Don't let your toilet rule your water bill. Fix it, replace it, and save!

Kids can win too! Children can join the fun by completing a coloring sheet. Each entry will be entered for a chance to win an exciting goodie bag and be recognized at the next City Council Meeting. Let's making saving water a family activity.

Toilet to-do's:

Find leaks. You can test your toilets with dye tabs or food coloring. If it changes color, it's time for a fix!

Fix leaks. Replace flappers, fill valves, or other parts. A \$5 part could save you \$50 on your water bill.

Replace toilet. Upgrade to a WaterSense certified low-flow toilet with rebate support. A smarter flush for a stronger future. For more information, visit joliet.gov/toiletrebate.
